

TOP REASONS YOU NEED THIS MULTI-COLOR 3D PRINTER

(5)00,000

1

INCREDIBLE REALISM

Print prototypes in 500,000 vivid colors with textures, gradients, transparencies and durometers

2

PRINT FLEXIBLE AND RIGID PARTS IN A SINGLE PRINT

You can print in a variety of material characteristics for parts with a combination of rigid and flexible properties, all in one set-up.

3

SMOOTH SURFACES

Thanks to double the number of print nozzles you can produce ultra-smooth surfaces and fine details, giving you incredible design capabilities.

4

LARGE MATERIAL CAPACITY

Unlike other multi-material 3D printers with less capacity, you can drastically reduce waste and save time and the inconvenience of frequent material change-overs.

5

CREATE BETTER PRODUCTS, FASTER :

When you need it better, faster and with more vivid color . . . you need the

Stratasys J750 3D Printer.
